# Hot Forming and Ring Rolling Machines

## Flange Production

Italian-crafted Mossini presses deliver 6300-ton hydraulic power for high-precision hot forming and ring rolling in global flange production.

N.1 PO/2M/HF/400	Trimming hydraulic press
N.1 PO/2M/HF/1250	Trimming hydraulic press
N.2 PO/2M/HF/1600	Preforming hydraulic press

## Oil and gas

Mossini delivers high-integrity hydraulic presses up to 6300 tons, providing precision forming solutions for critical global Oil & Gas infrastructure.

N.1 PO/2M/HF/500	Forming hydraulic press	Russia
N.1 PO/2M/HF/3150	Forming hydraulic press	Russia
N.1 PO/2M/HF/6300	Forming hydraulic press	Russia

## Sub supplier

Italian-engineered hydraulic mastery delivering high-tonnage forming technology and heavy-duty presses to Tier-1 OEMs for seamless industrial integration.

N.1 PO/4C/HF/3150	Forging hydraulic press	Spain
N.1 MS 160/125 - 3000/630	Ring rolling machine	Spain
N.1 MS 125/100 - 3000/600	Ring rolling machine	Italy

## Forging Plant

Italian-engineered automated forging lines featuring 1250-ton presses and robotics, optimizing production cycles and structural integrity for global metallurgical facilities.

N.1 PO/2M/HF/1250	Italy
Robots	Italy

# Hongli Hydraulic Equipments

Partnering with Static Hydraulic, Hongli Hydraulics engineers high-performance components and specialized machinery for heavy industry. Backed by the JS Group's global network, we merge Chinese manufacturing agility with SHPL's 33-year technical heritage. Our robust, cost-effective solutions from high-pressure power units to precision actuators meet stringent international benchmarks, optimizing efficiency across metallurgy, construction and energy sectors worldwide.

Customized Hydraulic Cylinders

Main Hydraulic Cylinder of  
Cold Drawing Machine

Press Plunger Cylinder

Customized Hydraulic Cylinders

60 Ton & 100 Ton Hydraulic  
Cold Drawing Machine

Main Hydraulic Cylinder of 1000T  
Cold Drawing Machine

Hydraulic cylinder engineered for extreme tensile force, ensuring superior dimensional accuracy and structural integrity in cold drawing.

XTX

# Aluminium Profile Extrusion

XTX delivers high-performance hydraulic innovation for complex industrial applications. Partnering with Static Hydraulic Pvt. Ltd., we provide high-tonnage systems engineered for durability and efficiency. Our machinery combines advanced mechanical synchronization with intuitive controls to maximize productivity in heavy fabrication. XTX DFM is robust as a reliable backbone for modern industrial ecosystems, offering precision-engineered solutions for the global supply chain.

3600T Aluminum Profile Extruder

3600T Aluminum Profile Console

700T Aluminum Profile Extruder

Aluminum Profile Extruder delivers high-tonnage precision and structural durability. Designed for complex industrial ecosystems, it integrates advanced mechanical synchronization and intuitive controls for maximum efficiency.

3000 Installation in Progress
